***Claim R ejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

Claims 26,34,35,36,37 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. The claimed subject matter was disclosed in patent number 5,797,960 to Stevens, et al. The inventors listed in this patent do not include Dr. Cox.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26-28,38-47 and 51 are rejected under 35 U.S.C. 102(b) as being anticipated by Lesh.

Lesh discloses a method for forming an elongate ablation to isolate one part of the heart from another including the steps of providing an ablation device, forming an opening in the pericardium, introducing the device through the opening and contacting a portion of the patient's heart and ablating the tissue. The step includes a pulmonary vein lesion and epicardial surface.

Claims 27 and 28, see columns 11-13.

Claims 38-47, see columns 13-16.

Claim 51, see element 170.

***Allowable Subject Matter***

Claims 29-32 and 48-50 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
